Communication

Team Collaboration

PROFILE

Results-driven and detail-oriented Data Analyst with hands-on experience in Python, SQL, and Power BI. Skilled at collecting, cleaning, and analyzing large datasets to uncover trends and deliver actionable business insights. Adept at building interactive dashboards and visual reports that support data-driven decision making. Passionate about turning complex data into clear, compelling stories for stakeholders.

EDUCATION

B.Tech — Computer Science & Engineering

2023 – PRESENT

R R Institute of Modern Technology (AKTU)

CGPA: 7.3 / 10

Intermediate — Science (UP Board)

2023

B R D InterCollege Patherdewa Deoria

High School (UP Board)

2021

PROJECTS

Retail Sales Analysis Dashboard (Python + Power BI)

2025

Analyzed 60,000+ rows of retail transaction data to identify revenue trends, seasonal patterns, and top-performing product categories. Built a fully interactive Power BI dashboard with KPI cards, drill-through filters, and time-series charts.

Preprocessed data using Pandas — handled nulls, duplicates, and type mismatches.

Discovered 3 high-revenue product segments contributing 65% of total sales.

Automated weekly reporting pipeline using Python, saving 6+ manual hours/week.

Customer Churn EDA (Python + SQL)

2024

Conducted end-to-end Exploratory Data Analysis on a telecom dataset of 7,000+ customers to identify churn drivers. Used SQL (CTEs, window functions, joins) for data extraction and Python (Seaborn, Matplotlib) for visualization. Delivered insights that highlighted contract type and billing method as the two strongest churn predictors.

CERTIFICATIONS

Google Data Analytics Professional Certificate

Coursera, 2024

Python for Data Science & ML Bootcamp

Udemy, 2024

SQL Advanced

HackerRank, 2023

Power BI Data Analyst Associate

Microsoft Learn, 2024
